

FORKLIFT ROGER RADIO

MURS 2-Way Walkie Talkie Model

MURS 2-Way Mobile Radio Model

FORKLIFT ROGER RADIO

Finally, a 2-way radio specifically designed for a forklift. The Forklift Roger Radio is always on, is secured to the forklift and is License Free. The 2-way communication increases safety, productivity and efficiency in a warehouse or office setting and reduces pedestrian traffic around forklifts. Handheld Walkie Talkie models that work together with the radios are available for pedestrians.

The MURS 2-Way Mobile Radio Benefits & Features:

- 12V DC Power
- 5 Channels available
- Range: approximately 1-2 miles line of sight
- Operating temperatures -5° - 140°F
- No license required, uses MURS 2-Watt frequencies
- Radio mounting bracket included
- Notify forklift operators instantly to get quick response times
- Reduce pedestrian foot traffic in a warehouse operation
- Reduce excessive traveling on the forklift
- Quickly locate product
- No interference with other long-range radio signals
- Optional DC -DC converter available for 24 - 48V electric forklifts
